High praise from exhibitors acknowledging ALUMINIUM CHINA as a must-attend high-quality annual event

Exhibitor Testimonials

Shandong Hongtuo Industrial Co., Ltd. JIANG Zhen, General Manager of Sales Headquarters

ALUMINIUM CHINA 2023 was a resounding success! As a globally renowned aluminium company, China Hongqiao Group Limited has always prioritized brand building and promotion, progressively advancing the internationalization of its products. At this exhibition, we are showcasing our entire industry chain advantage, including environmentally friendly aluminium, precision aluminium processing, automotive lightweighting, and recycled aluminium. The exhibition drew a substantial number of visitors, creating a highly enthusiastic atmosphere. Both domestic and international business representatives continuously engaged in negotiations. The on-site vibe and positive response exceeded expectations, effectively serving our goals of corporate promotion, product marketing, cooperation, and exchange. It also allowed us to comprehensively convey China Hongqiao's corporate philosophy to industry clients. We extend our gratitude to the organizer for their meticulous preparation and for providing this high-quality platform and strong support. We look forward to seeing the exhibition improve year by year!

Press Metal International Ltd WANG Linsheng, Deputy General Manager

At ALUMINIUM CHINA 2023, our group company showcased vertically integrated aluminium industry chain and a three-dimensional layout in various horizontal application fields. We engaged in in-depth discussions with visitors, partners, media, and aluminium industry insiders from around the world. ALUMINIUM CHINA stands out as an exceptional industry platform, and we sincerely commend the meticulous planning and execution carried out by the organizer. We eagerly anticipate our next gathering in Shanghai in 2024.

Shandong Nanshan Aluminium Co., Ltd. LYU Zhengfeng, Chairman

ALUMINIUM CHINA serves as the premier annual gathering of the aluminium industry, uniting top-quality global resources. At this exhibition, Nanshan Aluminium leveraged its advanced technological capabilities to showcase high-end aluminium materials, garnering appreciation and recognition from industry professionals. Nanshan Aluminium is eager to collaborate with RX Greater China to further advance the high-quality development of China's aluminium industry. We extend our best wishes for the continued success of ALUMINIUM CHINA, and we look forward to meeting again in Shanghai in 2024.

Henan Mingtai Aluminium Industry Co., Ltd. HE Zhigang, Deputy General Manager

ALUMINIUM CHINA 2023 was a great success! As a specialized exhibition focused on the aluminium processing field, it provided us with a platform to present Mingtai Aluminium's innovative "green and sustainable" aluminium processing solutions to industry clients. Through face-to-face and productive interactions, our industry partners gained a comprehensive understanding of Mingtai Aluminium's business philosophy, industry positioning, and specialized products, paving the way for numerous valuable collaboration opportunities. We extend our gratitude to the organizers for their meticulous preparation and wish for the ongoing success and improvement of the exhibition!

Henan Zhongfu Industrial Co., Ltd. MA Wenchao, Chairman

ALUMINIUM CHINA serves as a premier platform for domestic and international businesses, offering an excellent opportunity for companies within the aluminium industry chain to showcase their latest developments, gain industry insights, and foster communication and exchanges between domestic and international, upstream and downstream enterprises. Zhongfu Industrial has been a frequent participant in this exhibition, which has allowed us to expand our network, enhance our brand image, and establish valuable international collaborations. Particularly during this exhibition, we had extensive discussions with many new and old friends, achieving excellent results. We extend our gratitude to RX Greater China for their invaluable assistance and support to participating companies at ALUMINIUM CHINA. We look forward to the continued success and improvement of the exhibition.

Jiangsu Dingsheng New Energy Materials Co., Ltd. WEN Bin, General Manager

Guided by the dual-cycle development pattern both domestically and internationally, Dingsheng New Materials continues to strengthen its core aluminium product business while focusing on the new energy industry. At this exhibition, we have showcased our latest aluminium foil products with a wider range of dimensions, increased thickness options, and enhanced material characteristics, garnering significant attention from industry experts. RX Greater China has provided a substantial and convenient platform for industry players to exchange ideas and foster collaboration, showcasing the unique charm of aluminium processing and driving aluminium applications towards deeper, newer, and broader development. We appreciate RX Greater China for their support and assistance to the participating companies and eagerly anticipate jointly infusing new vitality into ALUMINIUM CHINA through our collective efforts!

Liaoning Zhongwang Group ZHENG Qingshan, Deputy General Manager

ALUMINIUM CHINA 2023, marked by its unprecedented scale and enthusiastic response, has provided a high-standard platform for communication within the aluminium industry during the post-pandemic era. It has facilitated profound exchanges between upstream and downstream enterprises and instilled market confidence. At this exhibition, Zhongwang Group, serving as a comprehensive supplier of aluminium alloy profiles, sheets, and deep processing solutions, not only showcased the company's image and accomplishments but also fostered increased exchanges and collaboration across the industry chain. We would like to express our great appreciation to RX Greater China for their support to the participating companies. We look forward to joining forces and working collaboratively to contribute to the thriving development of the aluminium industry.

SMS group SMS Engineering (China) Limited MAO Lihua, Vice President

ALUMINIUMCHINA is widely recognized as an industry benchmark, and SMS Group has been a dedicated participant in this event for over a decade. The exhibition not only serves as a vital platform for us but also for the entire metallurgical industry to foster communication and collaboration. This year, our theme for participating in ALUMINIUM CHINA is *Transitioning to Green Metals*. As a prominent partner in the metal industry boasting over 150 years of experience, SMS Group assumes the responsibility of achieving carbon neutrality and spearheading decarbonization efforts through cutting edge digital technologies.

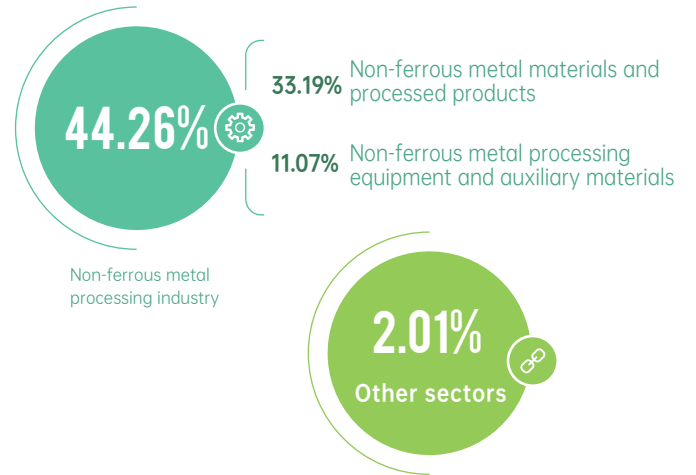

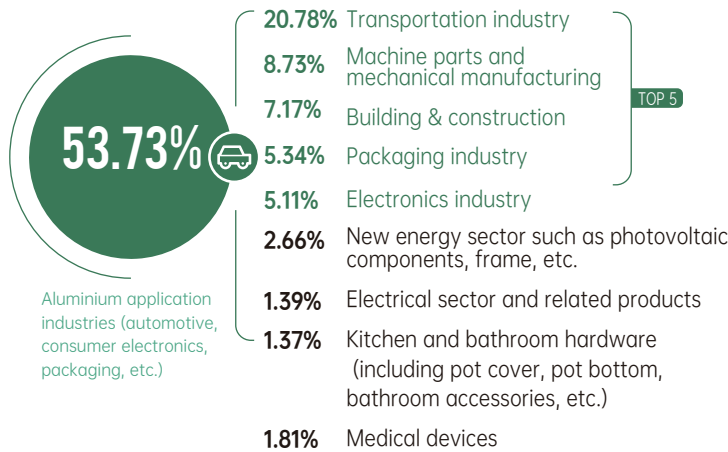

Pyrotek Pyrotek HUANG Zhengdong, Sales Director of the Aluminium Processing Industry in China

Since its founding in 1965, Pyrotek has remained steadfast in leveraging global resources to deliver products and innovative solutions to customers, thereby contributing to the advancement of the aluminium industry. At this exhibition, Pyrotek's theme is centered on "Global Resources, Local Support, Quality Enhancement, Energy Saving, and Emission Reduction." We engage in substantive discussions with both our old and new customers. We extend our heartfelt appreciation to RX Greater China for providing an outstanding platform, particularly achieving record-breaking success in the post-pandemic era. Over the past two decades, Pyrotek has witnessed the continuous growth and enhancement of RX Greater China in China. We also eagerly anticipate the platform's ongoing evolution and look forward to advancing together to accomplish further milestones!

Visitors had a fruitful experience and highly praised the event

Domestic Visitors Testimonials

Technical R&D Manager, Huayu Automotive Electric Drive System Co., Ltd.

ALUMINIUM CHINA is a highly worthwhile event to attend. This specialized exhibition places a sharp focus on the development of the aluminum industry, showcasing the latest achievements and cutting-edge applications in the realms of aluminum materials, processing technologies, and products. Visiting such an exhibition offers industry insiders the opportunity to grasp the dynamic trends within the aluminum industry and delve into its extensive applications in fields such as automotive and others. By visiting ALUMINIUM CHINA and participating in on-site business matchmaking activities, we can connect with industry experts, gain profound insights into the most recent material and technology advancements, explore innovative applications, and broaden our horizons for collaboration and business prospects. In conclusion, this exhibition is a highly valuable event for individuals interested in the aluminum industry.

Lingyun Industrial Corporation Limited

ALUMINIUM CHINA, organized by RX Greater China, has connected numerous companies and resources within the industry. This high-quality exhibition promotes the green, low-carbon, intelligent, and precision development of the aluminum industry. Many thanks to RX Greater China for providing a platform for everyone to exchange and learn through business matchmaking activities. We wish the exhibition continues to get even more fantastic!

SAIC Motor Corporation Limited

Manager of Powertrain and New Energy EIC System Material

Participating in this year's ALUMINIUM CHINA has been very beneficial for us. We gained many unique industry insights, and the customized services offered by the TAP team not only streamlined our experience but also ensured precise connections, saving us time and contributing to an exceptionally enjoyable visiting experience.

TANAKA TANAKA Electronics (Hangzhou) Co., Ltd.

Our company participates in ALUMINIUM CHINA every year, and we are able to obtain a lot of industry insights as well as information on new technologies and equipment. This greatly helps us broaden our industry and international perspective, as well as achieve cost reductions. We express our hopes for the continuous expansion of the exhibition in the coming years, benefiting both exhibitors and visitors alike. During this visit, as a TAP invited buyer by RX Greater China, we received tailored service and the experience was profound. Especially the meticulous and patient accompanying guidance service left a very positive impression on our Japanese colleagues. We hope to enjoy such services again next year. We extend our best wishes for the continued success and growth of RX Greater China and eagerly anticipate our reunion next year.

ORG Technology Co., Ltd.

ALUMINIUM CHINA organized by RX Greater China is the annual grand event of the aluminum industry! This year's grand gathering has been infused with the theme of "green, environmentally friendly, and circular economy," establishing itself as a trendsetter in the industry! We extend our heartfelt wishes for the continued success of ALUMINIUM CHINA, with hopes for even greater brilliance in the future!

Recap of On-site Activities

The 3rd China Aluminium Recycling Industry Chain Integrated Development Forum

The forum gathered experts and industry leaders from the aluminium recycling industry, with a central focus on industrial innovation. It discussed important topics such as the development of the aluminium recycling market, research and application of new materials, green and low-carbon empowerment, innovative technologies, and smart equipment manufacturing solutions. The forum attracted nearly 200 attendees.

The Forum on Aluminium Alloy Melting and Casting Technology Development

The forum focused on the most pertinent industry topics and invited industry experts to facilitate discussions on new technologies for high-end alloy casting, refining agents for the green development of the aluminium casting industry, alloying and purification mechanisms and practical applications of molten aluminium. It adopted innovative formats to effectively address complex production challenges, attracting nearly 150 participants.

The 4th Auto Lightweight Process Technology and Innovative Materials Forum - NEV Session

The forum brought together experts from renowned domestic and international companies specializing in complete vehicles, components, materials, and related solutions. It conducted a series of exchanges and sharing sessions focusing on materials, processes, and technologies related to lightweighting in new energy vehicles. The forum gathered representatives from over 200 companies along the automotive industry chain, both upstream and downstream, for discussions and exchanges.

The 10th Aluminium Packaging and Sustainability Forum

The forum focused on hot issues in the upstream and downstream production processes of aluminium packaging. It invited industry experts from companies such as Shanghai Baosteel, Snow Beer, Youpeng Packaging, Meiyume, and Xiashun Aluminium Foil to engage in discussions concerning the path to sustainable development in the aluminium packaging industry. The forum attracted more than 150 attendees.

Seminar on Application and Key Technology of Aluminium Based Heat Exchanger in Refrigeration Industry

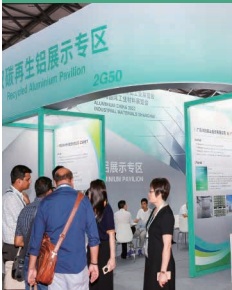

The seminar focused on technological innovation, development trends, and challenges of aluminium-based materials in the refrigeration industry. It brought together stakeholders from upstream to downstream, providing a robust platform for communication among air conditioning unit and heat exchanger manufacturers, as well as aluminium material companies. Experts from the Chinese Association of Refrigeration, China Household Electric Appliance Research Institute, Sanhua, Haier, Midea, and Xi'an Jiaotong University were invited to join more than 150 attendees in exploring the innovative applications of aluminium-based materials in the refrigeration industry.

"Future Aluminium Factory" - Digitalization and Smart Factory Application Forum

The forum centered around the current status, achievements, intelligence, and trends of smart manufacturing in the aluminium industry. It served as a platform for business negotiations with the objective of bolstering production efficiency for aluminium processing companies, ultimately supporting the industry's rejuvenation and advancement. The event drew the participation of nearly 150 attendees.

"Double Carbon" Display Area - Recycled Aluminium Pavilion

The pavilion focuses on showcasing cutting-edge equipment and technological innovations in the recycling of aluminium, serving as a hub for consolidating research advancements in this domain. It brings together materials and equipment related to recycled aluminium material supply, aluminium scrap recycling and utilization, and the application of recycled aluminium in aluminium processing. This provides new ideas and models for industry and enterprise development.

Lightweight Automotive Parts Pavilion

The pavilion is specially designed to showcase innovative products and applications in lightweight automotive parts, including advanced materials, processing technologies, components, and holistic solutions related to automotive lightweighting. It provides insights into cutting-edge automotive technology and techniques.

Aluminium Packaging and CSR Display Area

The display area showcased exquisite products developed by companies such as Hicap, Shenzhen Qingmima, Orgtech, Guangdong Euro Asia Packaging, Youpeng Packaging. These offerings included aluminium cans, aluminium aerosol cans, aluminium bottle caps, aluminium cosmetic packaging, and a booth featuring "Prefabricated food and takeaway aluminium foil packaging solutions" provided by Ablpack, attracting a large number of visitors.

Overseas Buyers' Testimonials

BANSAL METALS PRIVATE LIMITED

Mr. SAHIL BANSAL, MANAGING Director

First of all the exhibition was very nice. It's a nice platform for looking for the suppliers. There are a lot of attractions related to the industry. We spent very good time there and found some interested categories for business. Yeah, we probably will attend the ALUMINIUM China2024.

Sudarshan Aluminium India Ltd.

Abhishek Shah, Purchasing Manager

It's my fifth time been to ALUMINIUM CHINA and it's an inclusive platform where we can see what's happening in the industry and in China, with so many product categories there. We have been in cooperation with Chinese suppliers for 5 years. For me, ALUMINIUM CHINA is very good.

MHR Development Limited

Mr. Mostafa Raafat, Company Owner

Everything is good. The show is nice. I was in a lot of meetings to meet new suppliers and they just met my request precisely.

Airoldi Metalli S.p.a.

Luca Maffei, Purchasing Director

As an international visitor, I can only say that I was totally satisfied about the exhibition, about its organization and location. The opportunity to meet all our suppliers of the past and of the present, and the opportunity to meet new partners for the future, was really incredible. After the exhibition, I travelled in China to visit new aluminium plants, and new business relations are growing up. So that's why I'm going to come next year in ALUMINIUM CHINA 2024.

JUST Solutions

Naseem Badat, CEO

This was my first visit to aluminium exhibition in Shanghai. The exhibition itself was well put together and very similar in standard to Germany.

ALP aluminium Co.,ltd

Hien Nguyen, HEAD OF R&D

This is the first time I visit ALUMINIUM China. With the business matchmaking meeting, I can find new supplier and matching with my demand. The matchmaking service is very good and on time.

VAS Farma

Rodrigo Osorio, Manager of Operations

The business matchmaking event help us improve sourcing efficiency and meet new suppliers I wouldn't have met on my own.

Jet Technologies

Phil Weingott, Aluminium Manager

Overall the exhibition experience was a good one! There was a wide range of exhibitors, and the space was well utilized and the exhibition halls are well placed to travel to. Being able to use the business matchmaking services, and having the team from RX Global arrange meetings for me was great! A genuine time saver. The matchmaking meeting pairs my business with relevant businesses. It speeds up the process of discussions, as the business we were matched with already know what product I am looking for.

Kibar Holding A.S.

(Assan Aluminium Industry and Trade Co. Inc.)

Mrs. Gonca Batur, VP of Procurement

I think the exhibition was well organized. All the visitors were welcomed in a friendly way, and there were a lot of companies from all over the industry. It's worth to come. You gathered so many people in the fair to meet at the same and short time, which is unique and truly impressive.

PT Langgeng Makmur Aluminium Industri Tbk

Darren Limantono, Procurement Manager

Well, I think there's nothing need to be improved, everything just went well. It's my first time to the show and I felt good for everything.
